DETAILED ACTION

Applicants' arguments, filed 4/7/2008, have been fully considered but they are not deemed to be persuasive. Rejections and/or objections not reiterated from previous office actions are hereby withdrawn. The following rejections and/or objections are either reiterated or newly applied. They constitute the complete set presently being applied to the instant application.

Claim Rejections - 35 USC § 112—New Matter Rejection

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1, 13-17, 29-31 and 46 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Applicant has amended claims 1, 13-15, 17 and 30 to recite the phrase "dipeptidyl peptidase-IV inhibitors." Applicant states that support for this phrase can be found at paragraphs 25 and 28 of the specification. However, the specification at those paragraphs support the generic "dipeptidyl peptidase inhibitors" not the specific "dipeptidyl peptidase-IV inhibitors" as amended. Therefore, the amended phrase constitutes new matter.

Claim Rejections - 35 USC § 103-New

Claims 1, 13-17, 29-31, and 46 are rejected under 35 USC 103(a) as being unpatentable over Lohray et al. (WO 1997/041097) in view of Villhauer (US 6,011,155).

Lohray et al. teach a composition comprising balaglitazone, represented by 5-[4-[[3-methyl-4-oxo-3,4-dihydro-2-quinazolinyl]methoxy]phenyl methylene]thiazolidine-2,4-dione. (See claim 23, at pg. 110.) They teach that this compound is useful in treating type II diabetes and insulin resistance associated with obesity. (See pg. 1, paragraph 3.)

Villhauer teaches a pharmaceutical composition comprising a dipeptidyl peptidase-IV inhibitor. (See col. 38, claim 10.) They teach that the composition is useful in treating mammals, including humans, with noninsulin dependent diabetes mellitus (also type 2 diabetes) and obesity. (See col. 9, lines 51-56.)

It is settled law that "[i]t would be prima facie obvious to combine two compositions each of which is taught by the prior art to be useful for the same purpose in order to form a third composition that is to be used for the very same purpose; the idea of combining them flows logically from their having been individually taught in prior art." In re Kerkhoven 206 USPQ 1069, 1073.

Therefore, it is prima facie obvious to combine the balaglitazone of Lohray with a dipeptidyl peptidase-IV inhibitor of Villhauer, since both compounds are known in the art to be useful for treating type II diabetes and obesity. It would therefore be obvious to

combine the compounds of Lohray and Villhauer for administration to obese patients with type II diabetes, as per the claims.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
